

Gas Aggregation

Energy Alliances, the City's energy consultant, has created a custom website for residents to find information about the gas and/or electric aggregation.

You can reach the City of Wyoming's page on Energy Alliances website at: www.energyalliances.com > Community Aggregation > Communities We Serve > then select City of Wyoming from the list of communities. Here you will find current program rates as well as helpful signup and contact information. On mobile devices, the table of information can easily be viewed by scrolling to the right and left. Here is a direct link: <https://energyalliances.com/city-of-wyoming>

Questions about the current gas aggregation and/or the proposed electric aggregation can be directed to the City Manager at ltetley@wyomingohio.gov or 513.842.1382 or you may contact Energy Alliances directly at 513.794.5555.
